Complete Market Reports Corrected Each Day Giving the Wholesale Prices of Commodities, Farm Produce and Vegetables.

PORTLAND, July 21.—The feature of the week in new crop propositions was the spirit in hop contracts. Those familiar with market conditions in past years are aware of the annual pitched battle between growers and hop speculators. The time has come when hop "news" is received with not only a grain of salt, but with a bushel or two. From the most conservative source of information it is learned that the figure named this week, 12@13, is justified by world's reports of stock on hand and probable yield. As to the price between now and hop-picking time, the good Lord only knows what may happen to set the speculators going; and in the words of a new reporter sent to the seat of a trouble in Kentucky a few years ago: "I'm prepared to hear almost anything at any time." The outlook is fairly well described.

Eggs and Butter.

There continues to be a very good market for all concerned. In the egg market, prices being firm at 22c, which is considered reasonable to buyer and satisfactory to seller. In some quarters a half cent is named on top of the generally accepted figure. Ranch eggs are not coming in sufficiently to meet requirements, but the light receipts are being augmented by the Eastern goods, that sell side by side with the local eggs. No Portland storage eggs are being withdrawn, as far as could be learned. Butter is firmer, though there are still very heavy receipts from usual sources of supply, and some from quarters new to this trade previous to this year.
